LIGHT RATES IN CAMERON ARE REDUCED

Power Co. Makes Cut

Residental and commercial lighting rates in Cameron have been reduced an average of 10 per cent, effective with the current now being used. This announcement was made today by John C. Young, district manager of the Texas Power & Light Company.

This is the fourth voluntary reduction in residential and commercial lighting rates by the Texas Power & Light Company. Former reductions were made in 1926, 1928 and 1929.

Mr. Young further stated that residential and commercial lighting rates are now more than 40 per cent lower than in 1926.

The so-called 7 and 5 cent residential rate has been reduced in this manner: The first step of the rate has been changed from 7 to 6 cents for the first four kilowatt hours used per room. The 5 cent step has been changed to read that the next 60 kilowatt hours are billed at this rate instead of all additional service under the old rate. Then the Company has added two additional low steps which will permit many customers to use much cheap energy. Using a five room house for an example, after the customer has used 20 kilowatt hours at 6 cents and 60 additional kilowatt hours at 5 cents, the next 100 kilowatt hours are bought at 3 cents and all additional

Our Town

By J. B. White

"A good name is more to be desired than great riches."

Texas voters are confronted this year with an astounding piece of cheap politics if not actual rascality.

A Dallas lawyer, Jefferson T. Baker, went to court some months back and had his name changed. He selected a good name, but overplayed his hand in an attempt to gain favor with the Texas people. He emerged from court as George B. Terrell.

The name of George B. Terrell therefore appears on the Primary election ballot for the nomination for state treasurer. Readers of this newspaper and friends will not be taken in by this ruse. Any ballot cast for George B. Terrell for state treasurer, in fact will be cast for Jefferson T. Baker, a Dallas lawyer who is trying to get public office by subterfuge. The facts and circumstances are plain enough to say that no such deception will pass the intelligent voters of Milam county and Texas.

George B. Terrell, former Commissioner of Agriculture of Texas, and now Congressman at large, is an honored citizen and public official. The Terrell name in Texas belongs to the glory of the state, is interwoven with the history of the republic and the attempt of Mr. Baker to steal it, deserves only rebuke.

The Herald wishes to say in this connection that it believes also that the people of Milam county could do no greater service to themselves and the state than vote for Charlie Lockhart for state treasurer. It is the opinion of many that in the history of that office Texas has had no better treasurer than Mr. Lockhart. In this time of great national stress he has been mindful of the tax payers, recently delivering to Dallas in company with state rangers the relief bonds and saving $3000 that would have accrued by shipment.

Charlie Lockhart has never changed his name. It is greater than great riches. It has been magnified to the people of Texas by a record of honorable and capable service as state treasurer and a citizen of Texas. A vote for Charlie Lockhart is a rebuke to deception and an expression of belief in character and faithful service.

CANDIDATES TO SPEAK AT BUCKHOLTS FRIDAY

Democrats running for office in Milam county, will speak at Buckholts on Friday night June 29. It is expected to be one of the best attended rallies of the entire campaign.

Since the last issue the candidates have spoken at Gay Hill where one of the largest crowds of the season gathered, and at Maysfield where another great crowd heard the candidates speak. The citizens of Gay Hill co-operating with E. E. Eiland, executive committeeman fof that precinct, held an all day picnic and gave the visitors a royal welcome at night.

At Maysfield the citizens assisted by Al Massengale, executive committeeman, provided an entertainment that was pleasing to the people.

A band concert will precede the speaking at Buckholts on Friday night. The committee there does not plan to sell refreshments and the people will devote their entire time to entertaining the visitors. Buckholts is one of the strong Democratic precincts of the county.

Sam Bill Law In Hospital With Eye Injury Since Monday

Sam Bill Law, youngest son of Mr. and Mrs. Roy Law, is in the Woodson hospital in Temple where he was taken Monday following an injury to one of his eyes received while playing with companions in his neighborhood.

He was struck in the eye by a fragment of wire shot from a rubber held in the hand of a playmate. While it is believed that the injury is serious, some hope is held that the eye may be saved. He was rushed immediately to the hospital Monday. His mother is with him at the hospital.

Hundreds of friends in the city and county were gravely concerned and wish him a speedy recovery.

'THIN MAN' TO OPEN AT CAMERON JULY 3RD

Alexander Woolcott, noted critic called it "the best detective story yet written in America."

Sinclair Lewis, famous author and Nobel prize wnner, stated: "Dashiell Hammett is undoubtedly the best of American detective story writers and his last novel is certainly the most breathless of all his stories."

Both of these prominent literary men were speaking about "The Thin Man," which Metro-Goldwyn-Mayer has made into a thrilling picture which opens July 3 at the Cameron Theatre.

William Powell

Other critics have declared "The Thin Man" to be the most unusual detective mytsery to reach the screen. While most mystery films are steeped in drama and spooky shadows, "The Thin Man" is humorously entertaining as well as mysterious.

It presents William Powell in the

O. H. CROSS VISITS OLD FRIENDS HERE

O. H. Cross, Congressman from the 11th Texas District, came to Milam county Sunday to visit with his friends and to deliver his first important political address of the campaign.

The occasion of his visit was the annual picnic given by the Bohemian people at the National Hall. He had arrived in Waco on Saturday from Washington, and although pressed for speaking engagements, felt that he should come to Milam county because he has so many friends here.

Mr. Cross was met at the hotel in Cameron by a committee and a band and escorted to the Hall at 12:15 where he had lunch with the people, greeting many old friends he knew some years ago when he had personal supervision of his farms near Cameron.

His address in the afternoon delivered to a large and enthusiastic crowd was an account of his service in the Congress. Support of the President and recovery has been his policy in the Congress. Regarded as the best informed member of the Congress on farm needs and agriculture generally, Mr. Cross discussed at length his participation in farm recovery legislation. Currency legislation to bring back the price of farm commodities also received his active support in the Congress.

In discussing the administration he said that while he had not always agreed with the president, he had given him his whole support, believing that co-operation was vital to the welfare of the nation. He scored the Hoover regime for its abandonment

Hotel At Buckholts Destroyed By Fire

The Buckholts Hotel was destroyed by fire Friday night of last week. The origin of the fire has not been determined. All occupants escaped uninjured.

The hotel, owned and operated by Mrs. W. G. Bain, will be a severe loss to the city as well as the owner. Only the walls are left standing. Cameron's fire department made a trip to the burning building and rendered valuable assistance.

At the time this is written Reporterman is not informed as to whether J. B. White, Chairman of the Milam County Democratic Executive Committee, will be a candidate for re-election, nor is he informed as to the probability of there being another candidate. This newspaper sincerely hopes that Mr. White may be retained as chairman of the party's activities in this county. His service for the past several years has been of an outstanding character, and particularly pleasing to his newspaper confreres who appreciate the brand of service White gives. He has worked hard all during the lean years, and now that the party is in power he should be recognized as the logical man to retain the office. Reporterman hopes that he will not have an opponent, and herenow pledges his vote and support for J. B. White, the best county chairman this scribe has ever known.

FREE BARBECUE TO FEATURE BIG PROGRAM

All was in readiness at Skeezix Thursday for the big celebration on July 4 and a welcome is extended to the people of Milam county and Central Texas to attend this celebration.

Placards announcing the monster celebration are now being distributed over a wide area in Central Texas and the owners at Skeezix, Ed Balhorn and Elwood Cammer, extend to the people of this section a cordial invitation to attend the celebration.

A feature of the celebration will be an old fashioned Free Barbecue at 6 p. m. In recent years there has been a tendency to revive the free barbecues of other days. Skeezix will make a supreme effort to reincarnate the spirit of the old July 4th barbecues.

New Low Rate Applies to Lighting You Are Now Using

The old residential lighting rate was called a "7 and 5 cent" rate. The new rate can be called a "6, 5, 3 and 2 cent" rate. You can see that the first step in the new rate has been reduced from 7 cents to 6 cents and that new low steps of 3 cents and 2 cents have been added which will permit many customers to use much current at these new low rates.

For commercial lighting users a corresponding change in rate will make possible better lighting of stores and offices at small additional cost, or an immediate saving on the amount of service previously used.

In place of the former energy rates of "7, 5 and 3 cents," the new rate provides for "6, 5, 3 cents," and a new low rate of 2 cents for those who use lights and other electric equipment long hours each day.

To provide low rates for customers living in small houses and using a small amount of electricity monthly . . . and also to benefit customers living in large houses and likewise using a small amount of service . . a new Optional Rate has been provided. This Optional Rate provides a $1.00 minimum per month and for this minimum the customer can use 8 kilowatt hours. For the next 42 kilowatt hours the rate is 8 cents, for the next 50 kilowatt hours 5 cents, and all additional service 3 cents.

There is also provided an optional commercial lighting rate, for those who prefer a different type of rate.

of the masses of the people and declared that Roosevelt's heart beats with desire for recovery for all men. He said that the Democratic president had turned a deaf ear to all selfish interests, this being notable in the regulation of the stock and commodity exchanges of the country.

Hundreds cheered the Congressman who is a land owner and tax payer in this county and formerly lived a neighbor to many north of the city in the black land belt.

The committee on arrangements said the picnic was one of the largest ever held at National Hall. A total of 750 plates were sold together with a large volume of iced refreshments. One of the largest crowds of all times attended.

Two bands furnished music for the occasion: the Majek band of Cameron, celebrated musical organization and Baca's Band of Rogers, another widely known band.

Visitors from all sections of the country as well as the people in Cameron are good in their praise of the following and others who assisted in the arranzements. The committee: John Zalesky, August Gurecky, Leo V. Stecher, A. V. Wokaty, Frank Mikulec, John G. Jedlicka, Joe Stocklas, Frank Sustek, Mrs. Leo V. Stecher, Miss Bessie Marak, Mrs. Joe Hibner, Mrs. August Gurecky, Mrs. John Zalesky.

Hon. B. P. Matocha, attorney, was master of ceremonies and in his able way introduced each of the speakers. He said that O. H. Cross is one of the greatest men in the congress and a loyel representative of the people. He told a story of aid given the farmers who live on his lands here. In 1925 when no crops were made, the master of ceremonies said, Mr. Cross wiped out their debts and this year is giving to the tenants half of the government rental money.

Rudolph Marak of West, introduced to speak for Tom Hunter for Governor, paid high tribute to Mr. Cross whom he has known all his life. Mr. Marak, an orator of rare ability spoke in the Bohemian tongue for Tom Hunter.

J. K. Freeman spoke on the tax burdens of the people and advised his hearers to study the platforms of the candidates for Governor.

J. B. White, chairman of the Milam county Democratic Executive Committe, was introduced by Mr. Matocha and thanked the people for their interest in the Democratic party.

Burlington people of St. Michael's Parish, were hosts to Mr. Cross in the evening. The Parish gave one of its celebrated suppers. Hundreds enjoyed the hospitality. Mr. Cross spoke to the crowd and received enthusiastic welcome.

At the Burlington meeting John Pundt candidate for Railroad Commissioner, spoke. He also spoke at National Hall in the afternoon and was thanked by the committee for use of his loud speaking equipment.

finest of his detective roles. His wife is portrayed by Myrna Loy in the first light comedy role of her screen career.

Many familiar faces are to be seen in the film, among them Maureen O'Sullivan, Nat Pendleton, Minna Gombell, Natalie Moorehead and Edward Brophy.

On the other hand, many new faces make their debut in the detective story. They include Porter Hall and Cesar Romero from the New York stage; William Henry, who has just graduated from the Metro-Goldwyn-Mayer dramatic school, and Henry Wadsworth, an up and coming youth of the films.

Dashiell Hammett, who wrote the original story, formerly was a Pinkerton detective, but he "got tired of sticking his nose into other people's business" and decided to become an author.

W. S. Van Dyke, director of "The Thin Man," is the best known for his direction of "Trader Horn," Eskimo" and "The Prizefighter and the Lady," but is fast becoming one of the leading directors of metropolitan yarns.

service at 2 cents. The same flat rate of 60 cents per month for four rooms and 10 cents per room for additional rooms is maintained.

To provide a reduction to customers living in small and large houses and using only a small amount of service, a new optional rate is provided. This rate is $1.00 minimum and permits the customer to use 8 kilowatt hours for this minimum charge. For the next 42 kilowatt hours the rate is 8 cents and for the next kilowatt hours 5 cents, and all additional service is at 3 cents. This optional rate does not carry a flat charge.

The old 7, 5 and 3 cent commercial lighting rate has been changed to a 6, 5, 3 and 2 cent rate. This means that the top step has been reduced to 6 cents and that a new low step of 2 cents has been provided. Here is the complete rate: Six cents for the first 100 kilowatt hours per month per kilowatt of maximum demand; 3 cents for the next 100 kilowatt hours per month per kilowatt of maximum demand; 3 cents for the next 500 kilowatt hours and 2 cents for all additional service. The same flat rate of 60 cents per month for each 500 watts of maximum demand up to 2,000 watts and ten cents net per month for each 100 watts of maximum demand in excess of 2,000 watts is provided in the new rate.

A new optional commercial lighting rate is also provided for customers using a small amount of service and who could not get into the new low steps of the new rate. An optional rate has been available heretofore but the new optional rate was instituted to provide lower cost of service to all customers.

"This voluntary reduction is part of the policy of the Texas Power & Light Company to give the best service at the lowest possible rates consistent with sound business practice," Mr. Young said. "It is significant that the company has lowered these rates at a time when the prices of many other items in the family budget are climbing."

PERSONAL SKETCH

J. J. (Jack) PATTERSON
Candidate for
STATE COMPTROLLER

The life sketch of J. J. (Jack) Patterson, of Dallas, now a candidate for State Comptroller, reads like fiction and throws an interesting side light upon the iron will and indomitable courage of this remarkable man and native Texan.

Born in Red River County in the early eighties, of sturdy pioneer parentage, who came from Tennessee to Texas, he lived the hard, simple life of the ordinary farm boy of those times.

At an early age he was stricken with the dread disease of Spinal Meningitis which left him lame in his lower limbs and he now walks with a cane. Despite this severe physical handicap he did his work on the farm, hoeing, plowing and picking cotton, studying at night and in spare hours to improve his mind and prepare himself for life's bitter battles. By dint of hard work and frugal habits he saved enough money to attend East Texas Normal School at Commerce. After his course there he taught school under a First Grade State Certificate in Hunt, Collin, Fannin and Red River counties for a number of years. During his spare time he studied law and was admitted to the practice of that profession, which he followed for some years.

Later he became County Treasurer for two terms of Mitchell County. He then engaged in the legal profession and real estate business in Abilene, Cisco, and San Antonio, and he now resides in Dallas. In all of these places he met with moderate success financially and made many strong friends. The Golden Rule of "Do unto others as you would be done by," has always been the motto of Jack Patterson and his friends are numbered by his acquaintances, who have implicit confidence in his ability, honesty and fair dealing.

Those who know Jack love, honor and respect him, and are unanimous in the prediction that he will make a successful race for State Comptroller, and will make an efficient officer.

Mrs. Sue Stitt of Temple is here in the home of her sister, Mrs. Bob Terry while Mrs. Terry is in San Antonio at the bedside of her nephew Jack Collier.

Mrs. James W. Coleman is in a hospital in Temple. Her many friends wish her a speedy recovery.

"Now I'm the Picture of Health," Says Lady After Taking CARDUI

Here is how Cardui helped an Alabama lady. . . . "I suffered from pains in my back and sides," writes Mrs. A. G. Gray, of Cusseta, Ala. "I was so thin and weak, I read of Cardui and decided to take it. I noticed at once it was helping me. I kept taking Cardui until I had finished five bottles. I gained. My health was much better. Now I am the picture of health. My color is good and my weight increased." . . . Thousands of women testify Cardui benefited them. If it does not benefit YOU consult a physician.

MRS. FRANCES HANKS IS BURIED ON SUNDAY

Mrs. Frances Hanka, 82, died Friday afternoon June 22 at 3 o'clock at the home of her niece, Mrs. J. J. Michalka. The funeral was held Sunday afternoon at St. Monica's church by Rev. Father Schroder. Interment was made in the Catholic cemetery.

Mrs. Hanka was born in Austria and came to America about 48 years ago, coming direct to Milam county where she had made her home. She had lived several years in Cameron and had been a widow for a number of years. She had been a life long member of the Catholic church and was much loved for her many good qualities.

Surviving her are only nieces and nephews. Six of the nephews served as pall bearers: F. P., F. A., Joe, Jr. Louis, William R. and August Michalka. Coleman Undertakers directed funeral arrangements.

Black-Draught Brings Refreshing Relief of Constipation Troubles

Constipation produces many disagreeable sensations, several of which are mentioned by Mr. T. E. Smith, of Boonville, Ind., who writes: "I have used Thedford's Black-Draught many years when needed for biliousness and other minor ills when a laxative was needed. I have a tight feeling in my chest when I get bilious. I get dizzy and feel very tired, just don't feel like doing my work. After using Black-Draught, I feel much better. This is why I continue to use it when needed." . . . Thedford's Black-Draught is a good, purely vegetable laxative, obtainable for 25c a package.

have changed!

COOKING
isn't the job it used to be!

Rapid and revolutionary have been the improvements, in design and performance, of gas kitchen appliances these past few years. The modern gas range with its automatic controls, the gas refrigerator which operates without moving parts, the gas water heater which needs no attention . . . all have brought welcome relief from tiring, old-fashioned meal-making and housekeeping.

If cooking is still a job with you, take the first step towards a modern all-gas kitchen by installing a new range. It will have these important features: Self-lighting, insulated oven, automatic oven heat control, smokeless broiler and burners that won't clog with boil-overs.

The matchless performance of these efficient servants working for you in a modern gas kitchen means better meals at less cost and more leisure hours to enjoy. They are sold on terms by your dealer or your gas company which make ownership easy.

FRIENDSHIP 4-H CLUB

A demonstration on canning of plums was given to the Friendship 4-H Club by the home demonstration agent, Miss Bertha Fae Strange, on June 20, 1934, at the home of Ellen Bales.

The plums were first washed thoroughly and assorted. The culls were put to one side and only the ones that were not bruised or ones ripe were used. After washing each plum was pricked in one place to help keep the skin from bursting, while processing. A syrup of 1 cup of sugar to 2 cups of water was brought to the boiling point. The plums were then packed into jars and the syrup poured over them. The jars, only half sealed so that the heat would not burst them, were placed in hot water. The standard time for cooking in hot water bath is 15 minutes for quart and pint jars.

We have helped with our Club history. Also received an outline by which to write our history.

The meeting was adjourned with the club prayer.

CANNING HOME FOODS

By BERTHA FAE STRANGE

Home Demonstration Agent, Milam County

"I do not produce in my garden and orchard all the products I can by canning for others on halves, thirds, by the day, by trading cans for corn, chickens for tomatoes, plums for vegetables, I have managed to just about fill my canning budget for my family of six without spending but a very little money during the three years I have been a member of the Home Demonstration Club, says Mrs. L. L. Bradley, Pantry Demonstrator for Bethlehem Club.

"On achievement Day last October my pantry contained 994 containers of 159 varieties of food stuffs valued at $250.75. My present pantry consists of what is left of that pantry after I have lived out of it for six months, plus what I have already canned this season. Of the staples such as corn, meats, tomatoes, tomato juice, peas, etc., there are very few containers left, but of jam combinations, relishes, etc., my pantry is usually well stocked because I expect to make a specialty of these when our Farm Home Makers Market opens.

"I have 72 feet of shelving in a pantry which opens to my kitchen and this would be space enough for storage but the heat from the kitchen range rises and stays in the upper part of the pantry and keeps it too hot for it to be a desirable place to store canned goods. My canned goods have been stored here and there all over the house and garage in convenient places and I would have to hunt for what I wanted. We decided long ago just where we would build a storage cabinet which would be dry, cool and safe from a freezing temperature but somehow we never got around to building it. But this spring we had a good plum crop and sold enough plums to pay for the lumber and paint to build this long desired cabinet. My husband built it and my two small sons painted it for me. It is built against the inner partition wall in the garage. There are five shelves, each 12 feet long. When completed these will be closed in by doors and will have bins 31 inches deep across the full 21 feet under the bottom shelf. The lumber and paint so far has cost $4.65 but the doors and bins are yet to be added.

FROM THE MAIL BOX

Dear Editor:

Will you give me a moment of your valuable time and listen to a word in regard to our old Mothers and Fathers and old Friends.

Shall we honor our Mothers and our Fathers and Shall we love our neighbors as ourselves.

Now, listen! Some time in the past, maybe in the 70's or early 80's the United States Congress had a bill or was talking about making some loan or in some way caring for the aged of this nation. I thought that was grand, if we could do it, but our wise men said we could not do it, that we were not able then. I thought no more about it until some time about 1927 we had a bill up in Austin but it did not pass. Then I began to think which way would be best to care for the aged of our land. I have concluded that if we provide a home in the country and pay some one to take care of them it would run into millions of dollars and under the law as it was the county would have to pay the expense which many counties were not able to do. Then I asked this question: If it could be taken up by the whole nation would it be cheaper. I found by investigation that it would not cost as much by one half to care for our old people as it would in a county home.

Mr. Abraham Epstein said that New York found that it cost $13 less per month to pension an aged person than to care for them at the poor house. It cost $22 less per month in pensions than in county almshouses in California and in the first two years they had an old age security act.

I do not want to annoy you, but do we love our neighbors as we do ourselves. If we send him to an almshouse? Mr. Epstein said in his investigation most of the almshouses in mates have lost contact with the outside world. Now when men send an old person to the poorhouse they are out of society. If they hear any preaching it has to be such as the one in charge approves. They are not expected to go to church and mix with other people, so we see they are cast out of society.

In conclusion will say that Miss Miley M. Pape acting director of the department of social welfare in California states that the immediate effect of the law is plainly seen in the lives of the recipients and their families. A marked improvement is seen in their heaalth and living conditions and a greater peace of mind has been evident.

—Sympathizer.

Mrs. Elizabeth Burnett who has been sick for several weeks in the home of her daughter, Mrs. W. D. Bigbee, is reported to be improving. Misses Lois and Ruby Robbins, twin sisters, are taking a summer course at State University.

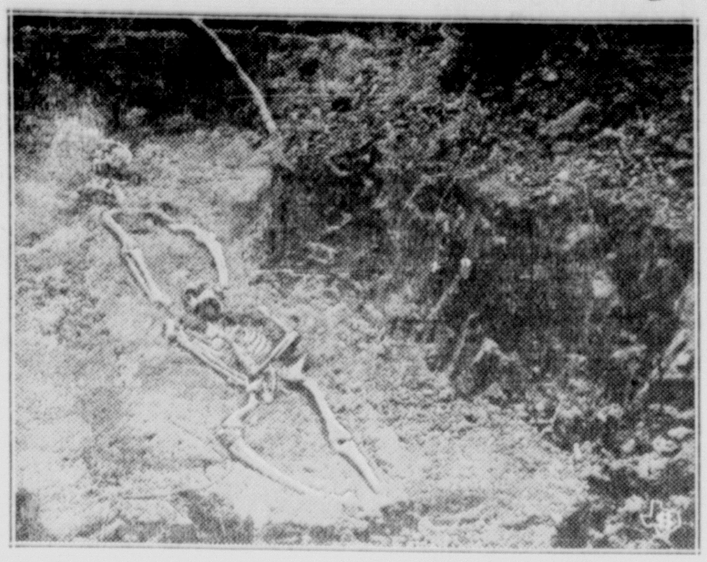
Graves of King's Texans Found at Refugio



The long forgotten graves of a small band of Captain King's men, killed by Mexicans under General Urrea in 1836 as they attempted to go from Our Lady of Refuge Mission at Refugio to join Fannin's army at Goliad, have been found by a unit of the Texas Landmark association, excavating near Refugio, Texas. An official burial service will be held. They also found graves of many Mexican soldiers, two of which are pictured above, comrades both in life and death. History tells of Captain King's attempt to escort the small group of families living at Refugio to safety when Urrea marched on Refugio, San Patricio and Goliad. (Texas News Photos.)

LOWER TAXES

WHAT? YES!

DEPRESSION laws knocked off the usual penalties and interest and substituted lower rates on taxes delinquent July 1, 1933. You will recall that from time to time the Legislature of Texas has been suspending penalties, interest and costs on delinquent taxes. In September, 1933, the last measure of this kind was enacted, with a provision written into the law, providing that this should be the last Remission Bill ever to be passed by the Legislature. This special law is known as Senate Bill No. 262 and by its own provisions expires and ceases to exist June 30, 1934. On July 1, 1934, all regular penalties, interests and delinquent costs return. You may pay taxes delinquent for 1932, or any prior year, by paying the amount of taxes due plus a penalty of only 6% except that for 1929 and prior years certain costs are due, which are not remitted.

We submit the following example:

In July, 1934—
30½% will be added to 1930 taxes delinquent,
24½% will be added to 1931 taxes delinquent,
18½% will be aded to 1932 taxes delinquent,
(a delinquent cost will accrue in addition to above)
$100.00 taxes delinquent for the year 1930 may be satisfied in full during May or June for $106.00, however, the same taxes paid in July would be $131.50, and the same differences apply for all other years.

For your information we call attention to Senate Bill No. 4 passed by the same Session of the Legislature that gave us above remission law, which is an Act providing for the transfer of the lien for taxes that the State, County or defined subdivision thereof, has upon real property. In other words, if a delinquent tax payer is unable to pay taxes delinquent at this time and thereby realize a substantial saving, he may arrange with a friend, or other persons, to pay the taxes and request a transfer of the lien for the taxes, which transfer is executed by the Tax Collector and gives to the individual the same lien and security for taxes held by the State.

We urge every delinquent tax payer to take immediate action to adjust all past due taxes as it is practically certain that relief from penalty and interest will never again be offered. We make the further suggestion that where delinquent tax payers do not avail themselves of the opportunity now presented and pay up delinquent taxes it will become necessary to take steps to enforce statutory liens for taxes and this action will proceed as rapidly as practicable after July 1, 1934.

Respectfully submitted,

Roy Law,

Tax Collector, Milam County, Texas.

FARM DEBTS ARE PAID BY GOVERNMENT LOANS

A total of $259,300 or Federal land bank and Land Bank Commissioner's farm mortgage loans was made in Milam county from June 1, 1933 to May 1, 1934, according to the Farm Credit Administration, of which P. S. Graves is secretary and treasurer.

Of this total, farmers in Milam county used approximately $252,300, or 97.3 per cent to refinance their indebtedness. By refinancing, farmers obtained new mortgage loans which they used to repay their old debts. They generally reduced their annual interest charges in doing so. In a number of cases, scale-downs of indebtedness occured in connection with the new loans. These and other advantages benefited farmers primarily. Secondarily, creditors benefited from the receipt of cash or bonds in exchange for obligations they held.

Of the loan money used by the farmers in Milam county for refinancing their debts, about $48,700, is was estimated, repaid their debts to banks; $57,600, their debts to insurance companies; $5,500, their taxes; $140,500 their debts to "others", or creditors not separately classified, including private mortgage lenders, mortgage loan companies, retired farmers and many others to whom farmers were in debt.

A total of about $7,000 of loans in the county was used for purposes other than refinancing of borrowers' debts. Of this sum $300 was used for the purchase of land and equipment, the construction or improvement of buildings, and for general agricultural uses, including the provision of capital, while $6,700, the balance, was used for the purchase of stock in national farm loan associations, for loan fees, etc.

We are glad to report that Henry Lippman, who suffered a broken leg some time ago in an automobile accident, is now able to be brought to the store for a few hours at a time.
